

GARDENING WITH GEORGIA NATIVE PLANTS

APPLICATION FORM

Please circle or highlight the plants present in your backyard used to attract wildlife. Certification will not be based on whether or not plants representing each of the groups listed here are present in your yard. The list simply provides just a sample of the wide range of Georgia native wild plants that provide our wildlife neighbors with food and/or cover.

KEY: **N** = Provides nectar and/or pollen for wild pollinators, **H** = Serves as a host plant for butterflies and/or moths, **F** = Provides seeds, fruits, berries for wildlife

Trees

American Holly (F, N)	Oaks (H, F, N)
