APPLICATION FOR CERTIFICATION
FOR ARTIFICIAL
NESTING/ROOSTING STRUCTURES

COUNTY: _____ DISTRICT: _____

NAME OF GARDEN CLUB: _____

How many homes are participating in this neighborhood? _____

Contact Person's Name, Address, Telephone Number & email address:

Number of nest/roost boxes originally found in your yard or the neighborhood seeking certification? _____

What species were the structures designed for? (Provide numbers of boxes for each species (e.g. 1 bluebird, 3 Carolina Chickadee)

What species of wildlife, if any, used one or more of these structures?

To earn certification in this activity, yards with existing structures must erect at least one additional nesting/roosting box. Consider erecting a box for a species not currently being provided with a box.

Yards without boxes must erect a minimum of one box.

Indicate how many structures were placed for each of the following species that regularly uses artificial structures in Georgia backyards.

Eastern Bluebird: _____	Carolina Chickadee: _____
Tufted Titmouse: _____	Brown-headed Nuthatch: _____

House Wren: _____	American Kestrel: _____
Woodpecker (Indicate Species)*: _____	
Bats: _____	Gray Squirrel: _____
Fox Squirrel: _____	Flying Squirrel: _____
Chimney Swift**: _____	
Other (Indicate species) _____	

* Woodpeckers only occasionally use nest boxes for nesting. However, they regularly use boxes for roosting.

** Please take chimney cap off during the off-season for Chimney Swifts to nest

Care should be taken to place the right box with the right dimensions in the correct habitat. For example, a bluebird box placed in a forest will rarely attract a bluebird.
